EDUCATION

Indian Institute of Technology (BHU), Varanasi   Expected 2024
Bachelors in Pharmaceutical Technology   CGPA 9.42

SKILLS

Languages	Javascipt, Python, C, C++, HTML
Technologies/Frameworks	ReactJS, React Native, NodeJS, ExpressJS, Redux, Socket.IO
Databases	MongoDB, FireStore, SQL
Deployments	Heroku, Netlify
Soft Skills	Leadership, Teamwork, Problem Solving, Public Speaking, Organizational skills

PROJECTS

Twitter-Clone
This is a simple application created using React Native and Redux to mimic basic design and functionality of the official Twitter app. It uses fakerJs and json-server to run a demo server for the application.
Technologies used: React Native, Redux for State Management, Redux Saga, React Navigation

Crypto Analyser
Uses CoinGecko API to get the data related to various crypto-currencies. Display the data related to top 100 crypto-currencies and fetching the data. Added a functionality to search for a given crypto-currency
Technologies used: ReactJS, CoinGeckoAPI, Javascript

Guess the number
It asks the user to guess a number between 1-20. Based on the user input, game tells whether the guess was lesser or greater than the expected
Technologies used: HTML, CSS, Javascript

EXTRA-CURRICULAR ACTIVITIES

- Participated in CasEx 2021, and qualified round 1, a case study event in which the participants were given some real life problem statements of a start-up to be solved.
- Worked with Student Counselling Services as a induction mentor and facilitated smooth conduction of induction program of freshers

CERTIFIED COURSES

- The Complete JavaScript Course 2022: From Zero to Expert!   Jonas Schmedtmann
